Business Intelligence (BI)
Services

- Fifteen years' experience
- Flexible approach
- UK's Number One Reseller
- Business Objects Gold Partner
- Tailored training and consultancy
- Competitive rates

At DSCallards we pride ourselves in our flexible and creative approach to delivering effective Business Intelligence (BI) solutions to meet your needs

Our combination of Business Objects technology, services and education addresses the complete scope of any project.

This unique mix allows us to take ownership of projects ranging from product installations to strategic business transformations. Our toolbox of technology, processes and people elevates products to solutions, drives innovation and ultimately creates the highest value for your organisation.

TRAINING

DSCallards offer the complete range of training courses which can be tailored to suit your requirements, timing and location. If formal training is not appropriate, our consultants can assist users on a one-to-one basis and provide mentoring through processes and procedures based upon in-house systems and databases.

CONSULTANCY

Employing our Consultants means gaining access to some of the most experienced people in the industry but only when you require them, utilising an expert to maximise the software potential at the point which matters the most.

SUPPORT

Selecting Technical Support with DSCallards puts you in touch with a dedicated, specialist team of Crystal Reports experts who will provide you with the most cost effective and practical solutions to your Business Intelligence problems.
